Profile:	Female, 23, Single
Nationality:	Algerian
Current Location:	Al-Rayyan, Qatar
Last Position:	AI & Software Developer – OOREDOO (Algeria)
Total Experience:	3 years
Visa Type	Valid QID, NOC available
Languages:	Arabic: Native (mother tongue) - English: Proficient, French: Proficient - German : Beginner.
Notice Period:	Immediately

Computer Science Engineer with hands-on experience building intelligent, scalable, and production oriented solution Combining expertise in Full-Stack Development, Artificial Intelligence, Data Analytics and Distributed Systems to Design reliable software and transform complex requirements into practical digital solution

Work Experience

Jun 2024 – Current	Auto Entrepreneur	Remote, Algeria
FREELANCE COACH & TRAINER IT / DEV/AI		
Responsibilities:		

- Providing training and coaching in IT, Artificial Intelligence, Data Science, programming, and web development.

Feb 2026 – Jul 2026	OOREDOO	Algiers, Algeria
AI & Software Developer		
Responsibilities:		

- **Project: Design and Development of a Bulk SMS System with AI SMS Personalisation**
- Systems Engineering: Architected a microservices ecosystem using Apache Kafka, Docker, and REST APIs to enable scalable and fault-tolerant SMS campaign processing.
- Artificial Intelligence: Built a hybrid AI pipeline leveraging K-Means clustering for subscriber segmentation and LLMs with prompt engineering for dynamic personalized message generation (SMS).

Jun 2024 - Sep 2024	RUYA TECH	Paris, FRANCE
LARAVEL DEVELOPER - REMOTE		
Responsibilities:		
Designed and developed scalable web applications using Laravel, with a focus on clean architecture, reliable performance, and maintainable code. Implemented business-oriented features, optimized application performance and database queries, and collaborated remotely with the development team to deliver efficient and user-focused solutions.		
Oct 2023 - Jun 2024	WARACHAT PLATFORM	Remote, ALGERIA
FULL STACK & AI DEVELOPER		
Responsibilities:		
<u>Project: Intelligent Product Catalog for a BTP Marketplace</u> - Development: Developed the marketplace catalog using Laravel, Livewire, and Python, with structured product management and database integration. - AI: Implemented ML/NLP-based product standardization and classification to automate catalog organization and improve product search and consistency.		
Dec 2023 - Mar 2024	TECH FLY - MINIMO	Oran, ALGERIA
LARAVEL DEVELOPER - REMOTE		
Responsibilities:		
- Tech Fly: a development box specializing in digital solutions. - Focused on <u>clean code & project architecture</u>, deepening expertise in Laravel/Livewire. - Gained experience in building efficient systems.		
Jun 2023 - Mar 2024	CONCENTRIX	Algiers, ALGERIA
IT SOLUTIONS CREATOR		
Responsibilities:		
- Developed a mobile booking application using Flutter. - Developed a Laravel-based web administration platform for room and reservation management. - Designed relational database structures for users, rooms and bookings. - Implemented backend business logic and CRUD operations. - Integrated application components through database-driven workflows.		

Volunteer works

Sept 2021 - Sept 2024	Scientific Club - CSCC	Blida, ALGERIA
TRAINER & COACH EVENT ORGANIZER TEAM LEADER IN DESIGN & WEB		
Responsibilities:		
Training & Mentorship : Trained over 50 students in UI/UX design, web development, and graphic design through both onsite and online sessions. Team Leadership : Led a team of 10+ students on web and design projects, promoting collaboration, creativity, and technical skill development. Event Management : Organized scientific events such as conferences, workshops, and tech challenges, significantly increasing student engagement and participation.		

Education

- Sep 2024 - Jul 2026 : **Blida 1 University - USDB1 Algeria**
Master's Degree In Computer Systems & Networks (SIR)
- Sep 2021 - Jul 2024 : **Blida 1 University - USDB1 Algeria**
Bachelor's Degree In Computer Science
- **BAC YEAR : 2021**
Scientific stream - Mention : Very Good (TRÈS BIEN (16.24/20))

Skills

- **Frontend:** React, Livewire, Flutter, JavaScript, HTML/CSS.
- **Backend & Architecture:** Python, Java, PHP, Laravel, Spring Boot, Apache Kafka, Docker, Microservices, REST APIs.
- **Databases:** MySQL, PostgreSQL, MongoDB, SQL, Database Modeling, Data Normalization.
- **Tools & Design:** Git/GitHub, Excel, Power BI, Figma, Adobe XD, Photoshop, Illustrator.
- **AI & Data Analytics:** LLMs, LoRA/PEFT, HuggingFace, Prompt Engineering, NLP, Machine Learning, K-Means Clustering, RAG, Data Analytics, Power BI.

Key Projects

- **VisaEdu | Full-Stack Educational Platform:** Designed and developed a full-stack platform connecting students with international study opportunities using JavaEE, Spring Boot, and REST APIs.
- **Web Projects & Platforms:** Developed and contributed to multiple web applications, including
 - WebHelp Management App
 - LRDSI Website
 - Alpha Interim Website
 - CSCC Website
 - Room Booking System
 - Stock Management App
 - E-commerce platforms, using modern web development technologies.
- **Medical AI Chatbot:** Fine-tuned a Large Language Model using LoRA/PEFT for domain-specific medical dialogue, applying prompt engineering and evaluating responses on healthcare QA benchmarks.
